Trend Western Technical Corporation

- a. This no-cost modification is issued to make administrative changes and to update the Government Furnished Equipment listing. All changes are identified by a bar in the margin of the hard copy page or displayed by dark bold blue text on the supply intranet/CD ROM page.
- b. Remove and replace C1-26 with REVISED PAGE C1-26. This change is to correct "of" to read "or."
- c. Remove and replace REVISED PAGE C5-7 (Mod P00012) with newly REVISED PAGE C5-7 which uncapitalizes "problems."
- d. Remove and replace C5-13 with REVISED PAGE C5-13 which changes "Operate an on base outlets..." to read "Operate on-base outlets..."
- e. Remove and replace REVISED PAGE C5-16 (Mod P00012) with newly REVISED PAGE C5-16 which adds hyphenation to "inter and intracommand."
- f. Remove and replace TE1-1 with REVISED PAGE TE1-1 which renumbers paragraphs to eliminate duplicate paragraph 2.2.
- g. Remove and replace TE5b-1 through 5b-19 with REVISED PAGES TE5b-1 , REVISED TE5B (Part One) Pages 1-13 and REVISED TE5B (Part Two) Pages 1-17.
- h. All other terms and conditions remain unchanged.

1.9.9.5 Containment and cleanup are required to protect property or water drainage systems IAW the base spill plan.

1.9.10 Environmental Compliance Assessment and Management Program (ECAMP): Government ECAMP evaluations are performed every year by an external team (personnel outside the base) and/or an internal team (base personnel). All organizations' compliance with federal, state, and local and Air Force environmental regulations and laws are evaluated. The contractor shall support the ECAMP process. When requested, contractor shall provide a knowledgeable person to the internal team, usually the environmental POC, for the entire length of the ECAMP evaluation and any prior training sessions and/or meetings.

1.9.11 Environmental Impact Analysis Process (EIAP): EIAP is the Government program for ensuring compliance with the National Environmental Policy Act (NEPA). The contractor shall submit an AF Form 813, Request for Environmental Assessment for all new actions, and/or changes to existing conditions (i.e., new construction projects, etc.).

1.9.12 Natural and Cultural Resources. The contractor shall comply with base natural and cultural resource policies and procedures.

1.9.13 Salvageable Goods. Precious metals shall be turned in to the appropriate base agency (Ref para 5.10.). Additionally, all metal type waste, i.e., steel, iron, etc., shall be recycled and/or disposed of in accordance with base policies.

1.9.14 Environmental Inspections. Hazardous waste and used oil accumulation and satellite collection points shall require regular inspections by point managers as defined in the base Hazardous Waste Management Plan. Contractor shall be responsible for initiating corrective action for any discrepancies within 24 hours of identification. Additionally, the base Environmental Flight may also inspect any accumulation point of a facility at any time. Environmental Flight representatives have the authority to initiate shutdown of operations if discrepancies could lead to environmental violations.

1.9.15 Environmental Violations and Fines. The contractor shall reimburse the Government for any remediation undertaken to clean up releases by the contractor and for any civil or criminal fines or penalties for any environmental infraction caused by the contractor.

1.9.16 Contract Reimbursement for Cost Incurred by the Government in Liquid Petroleum Leaks and/or Spills. The contractor shall reimburse the Government for all costs incurred by the Government for leaks/spills caused by the negligence of the contractor's employees. These costs shall be but not limited to the following:

1.9.16.1 Base Fire Department costs for standing by or flushing down the affected area.

1.9.16.2 Base Spill Cleanup Team costs for containment and cleanup.

5.3 RECEIVE MATERIAL. The contractor shall:

5.3.1 Receive, inspect, and process supplies and equipment items IAW AFMAN 23-110, Vol II, Part Two, Chapter 10, Sections A and D; AFMAN 23-110, Vol I, Part One, Chapter 5, Section C; and AFJMAN 23-209.

5.3.1.1 Unload vehicles delivering material to Supply from local vendors and through normal Transportation Management Officer (TMO) channels IAW AFMAN 23-110, Vol I, Part One, Chapter 5, Section C; and AFI 24-201.

5.3.1.1.1 Any problems arising between carrier personnel and incheckers will be resolved by TMO personnel.

5.3.1.2 Perform freight in-checker duties IAW AFI 24-201, paragraph 4.12 and AFR 75-2. Incheckers will be trained by TMO personnel.

5.3.1.2.1 Incheckers will use hand held terminal to scan data from items. TMO personnel will upload and download data from hand held terminal into CMOS.

5.3.1.3 Establish a transitory holding area (THA) for hazardous and flammable material processing. Coordinate and obtain approval of local bio-environmental safety and fire department officials IAW AFMAN 23-110, Vol I, Part One, Chapter 5, Section C; and AFJMAN 23-209.

5.3.1.4 In-check property, annotate receiving document for receipt, loss, damage or other discrepancies, and update computer records in the time frames specified below.

TECHNICAL EXHIBIT 1

PERFORMANCE REQUIREMENTS SUMMARY

1. Performance Requirements Summary (PRS). The PRS charts and Air Force Forms 713 at the end of this exhibit:

- 1.1 List those PWS requirements that the government will surveil. The absence of any contract requirement from the PRS shall not detract from its enforceability nor limit the rights or remedies of the government under any other provision of the contract, including the clauses entitled "Inspection of Services" and "Default".
- 1.2 Define the standard of performance for each listed service.
- 1.3 Set forth the maximum allowable deviation from standard performance for that service that may occur before the government will invoke the payment computation formula, resulting in a payment of less than 100 percent of the maximum payment for the listed service.
- 1.4 Define the lot used as the basis for surveillance or for payment computation purposes.
- 1.5 Set forth the surveillance methods the government will use to evaluate the contractor's performance for the listed tasks.
- 1.6 Set forth the percentage of the total contract price that the listed contract requirement represents, only if the surveillance method is either 100-percent inspection or random sampling.

2. Government Quality Assurance. Contractor performance will be surveilled to determine if it meets the contract standards. A variety of surveillance methods may be used.

- 2.1 Random sampling of recurring service outputs using indifference quality level (IQL) indexed sampling plans.
- 2.2 One hundred percent inspection of the output.
- 2.3 Periodic inspection of the processes or output.
- 2.4 Customer Complaints.

3. Performance Evaluation. Performance of a service will be evaluated to determine whether or not it meets the performance requirements of the contract. When the performance requirement is exceeded, a Contract Discrepancy Report (CDR) will be issued to the contractor by the contracting officer. Upon evaluation of the contractor's response to a CDR for tasks surveilled by random sampling or 100 percent inspection, the contractor's payment for the month in which the performance in question occurred will be calculated as stated in paragraph 4. The contractor shall respond to the CDR by completing block 9 and block 10 of the form and returning it to the

GOVERNMENT FURNISHED EQUIPMENT

(EAID/NON-EAID and ADPE)

The Government will furnish the following government owned equipment. A list of government owned equipment is listed within this Technical Exhibit. The list consists of Part One (Equipment) and Part Two (ADPE). This list of equipment is subject to change as replacement or additional equipment is received. The contractor is responsible for additional or replacement equipment or ADPE furnished in the period between modifications to this technical exhibit. Modifications to this technical exhibit will be accomplished at least semi-annually unless there are no additions or turn-ins.
